Celebrating 20 Years of Service with TAPPI

North Tonawanda, NY - Taber Industries is proud to recognize Alan Jaenecke for achieving an impressive milestone: *20 years as an active member of TAPPI*, the leading technical association for the pulp, paper, packaging, and converting industries.

During his two decades of involvement, Alan has been a dedicated contributor to TAPPI's Physical Properties Standard-Specific Interest Group, focusing on abrasion and bending resiliency. His leadership has been instrumental — serving as Working Chair, coordinating technical reviews, and guiding updates for several TAPPI test methods that reference Taber instruments.

Alan's long-standing participation directly strengthens Taber's commitment to quality and innovation. By helping shape and refine industry standards, he ensures that Taber's test instruments remain aligned with evolving technical expectations, emerging material challenges, and best-practice methodologies. This involvement not only reinforces the credibility of Taber equipment within the global testing community, but also provides customers with confidence that their measurements are based on rigorous, current, and widely accepted standards.

Taber Industries congratulates Alan on this milestone and extends sincere appreciation for his ongoing dedication to advancing industry standards and supporting the customers who depend on them.

For additional information, please contact Taber Industries at sales@TaberIndustries.com.
