Subject: Taber Products – Proprietary Designs

Taber instruments and abrasive formulations are proprietary designs of Taber® Industries and manufactured only by our factory in the United States. We hereby certify that Taber Industries is the sole manufacturer of the following instruments:

- Taber V-5 Stiffness Tester (Models 150-B, 150-D, 150-E or 150-T)
- Taber Grit Feeder Attachment (Model 155, 255 or 355)
- Taber Wheel Refacer (Model 250 or 350)
- Taber Shear / Scratch Tester (Model 550 or 551)
- Taber Multi-Finger Scratch / Mar Tester (Model 710)
- Taber Sample Cutter (Model 5000)
- Taber Rotary Platform Abraser (Model 5130/5150, 5131/5151, 5135/5155, or 1700/1750)
- Taber Linear Abraser (Model 5700, 5750, 5770 or 5800)
- Taber Reciprocating Abraser (Model 5900)
- Taber Oscillating Abraser (Model 6160)

The abrasive wheels and Wearasers® are a proprietary formula comprised of silicon carbide or aluminum oxide abrasive particles embedded in a resilient or vitrified (clay) binder. Available through authorized Taber distributors, Genuine Taber abrasants can be identified by a security label found on the wheel container (see image).
